ISBN:	1 74101 798 X
Code:	HB798X
RRP:	\$39.95
Format:	208 x 297 mm
Extent:	116 pgs
Age range:	Primary school; high school
Category:	Cooperative learning; thinking skills; Bloom's taxonomy; Multiple Intelligences

Summary:

This book has been designed specifically to engage and motivate primary and secondary school students to think 'outside' the box, to create new ideas and to have fun whilst learning. By adjusting the depth and breadth explored within the activity, each one will suit students from any year level from a full range of subject areas.

The activities can be incorporated into Pirozzo's 48-grid matrix which integrates Bloom's Taxonomy and Multiple Intelligences. In doing so, they develop a range of thinking skills in students and provide for the diversity of learning styles in any classroom.

50 Cooperative Learning Activities will be useful to you as a teacher as you continue to provide the most engaging, exciting and challenging learning environment to all your students.

Key selling points:

- Activities related to all subject areas across all year levels.
- Diverse, real-life activities to engage students and make learning fun.
- Detailed overview of what cooperative learning is, how it works and why it works.
- 20 pages of reproducible thinking tools.
- Explicit activity outlines that include content, materials, procedure and suggested questions for class discussion.

Supporting resources:

- *Improving Thinking in the Classroom* (HB5103)
- *Great Games for Cooperative Learning* (3014)
- *Activities for Cooperative Learning* (2699)
- *Cooperative Teaching in a Multi-Age Classroom* (1107)
